CareFlex

# CareFlex Fabric Range

All our chairs are available in a large selection of hardwearing, easy maintenance fabrics with a choice of bright and traditional colours. The fabrics are divided into 2 price bands (A-B) dependent upon the specific finish and additional properties. Whatever your fabric requirements, we have a choice to fit.

Our range of stylish fabrics are carefully selected to suit a variety of care environments. All fabrics are easy to clean, and offer high levels of comfort and durability. They are manufactured to be resistant to moisture ingress, and meet Crib-5 fire retardancy standards. You can also choose fabrics with antifungal and antibacterial properties that will not support microbial growth, protecting against E.Coli, Aspergillus Niger and MRSA.

## Fixed Covers

Our fixed covers give the chair a sharper, minimalist appearance, and are designed to meet the increasing needs of infection control.

## Removable Covers

Our removable covers can be easily taken off for cleaning, or replaced if they are damaged.

## Customers' Material Choice

As an extra service, we can customise the chair with a fabric of choice outside of our standard range. We'll simply supply a quotation for the chosen fabric on request (orders are subject to a £40 administration fee).

## Stirata

### Fabric Finish

100% Treated Polyester

### Recommended Cleaning

Clean regularly with warm soapy water. (NB see full details in User Instructions).
